The Citizens of Bee County

Ladies, Gentlemen, and Citizens:

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, the Comprehensive Annual Financial Report of Bee County for fiscal year ending September 30, 2012 is hereby issued.

This report consists of management's representations concerning the finances of Bee County. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Bee County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of Bee County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, Bee County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As financial management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Bee County's financial statements have been audited by Pattillo, Brown, & Hill, L.L.P., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Bee County for fiscal year ending September 30, 2012, are

free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; testing the compliance of self imposed policies, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that Bee County's financial statements for the fiscal year ended September 30, 2012, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of Bee County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and legal requirements involving the administration of federal and state awards. These reports are available in the last section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Bee County's MD&A can be found immediately following the report of the independent auditors.

· Profile of Bee County

Bee County is in the Rio Grande plain of south central Texas, fifty miles northwest of Corpus Christi and 146 miles southeast of Austin. It is bordered on the north by Karnes and Goliad counties, on the east by Refugio County, on the south by San Patricio County, and on the west by Live Oak County. Beeville is the county's largest town and seat of government. An airport built in 1966 serves Beeville and the surrounding region.

Bee County covers 866 square miles that slope gently to the coast. The elevation ranges from 200 to 300 feet. Geologically northern Bee County is in the Rio Grande embayment; the Lissie and Beaumont formations extend into the southern part of the county to form a broad, flat, and fertile plain. Blanco, Medio, and Aransas creeks and their tributaries, which flow in a southeasterly direction, drain the county. The southwest corner of the county has cracking clayey soils or loamy surfaces with cracking clayey subsoils. The northern two-thirds of the county has dark, alkaline soils, with loamy surface layers and cracking clayey subsoils, while the remainder of the county has light-colored acidic soils, with loamy surface layers and cracking clayey subsoils. Between 41 to 50 percent of the land in the county is considered prime farmland.

Bee County was established shortly after the settlement of the Cart War, which originated ten miles east of the site of Beeville. The county, named for Barnard E. Bee, Sr., was formed from San Patricio, Goliad, Refugio, Live Oak, and Karnes counties on December 8, 1857, and officially organized on January 25, 1858, when the first officers were elected. Beeville, the first county seat, was on Medio Creek, near Medio Hill, where the first post office had been established in 1857. In 1860 Maryville became the county seat; this community was later designated Beeville-on-the-Poesta to distinguish it from the former county seat.

Bee County is a public corporation and political subdivision of the State of Texas. The county seat is the City of Beeville. The general governing body of the County is the elected five-member Commissioners' Court in accordance with Article 5, Paragraph 18 of the Texas Constitution.

Commissioners serve four years staggered terms, two members elected every two years. The county judge is elected at large to serve a four-year term. Therefore, the Court makes decisions and imposes policies to benefit the entire County of Bee and the citizens therein.

The Commissioners' Court sets the tax rates, establishes policies for the County operations, approves contracts for the County develops and adopts the County budget within the resources as estimated by the county auditor. The Commissioners' Court is also responsible for development of policies and orders, approving financial commitments and appointment of various department heads. The management and leadership provided by members of the Commissioners' Court and the elected and appointed officials of other departments are crucial to the success of the County's financial management and growth.

The county auditor has responsibilities for prescribing the systems and procedures for handling the finances of the County and "examining, auditing, and approving" all disbursements from County funds prior to their submission to the Commissioners' Court for approval. The county auditor is appointed by the council of district judges for a two year term.

The County provides many varied services for the public it serves. These services include operation of the district, county and justices of the peace judicial systems, voting operations for national, state and some local elections, maintenance on and construction of county owned roads and bridges, recording functions relating to property rights and vital statistics, operation of the law enforcement agencies (sheriff and constables), operation of the county jail, assistance to indigents, the provision of juvenile health and education and welfare services involving the care and correction of dependent or delinquent children as well as property tax collections for multiple agencies.

The County does have one blended component unit which is included in this report.

The annual budget serves as the foundation for the County's financial planning and control. All departments of the County are required to submit requests for appropriation to the county auditor on or before May 31st of each year. The county auditor uses these requests as the starting point for developing a base line budget, without any tax increases. The county auditor then presents this base line budget to the Commissioners' Court for review prior to July. The Commissioners' Court holds several budget workshops to discuss priorities or meet with department heads. A copy of the proposed budget is filed with the county clerk, county auditor, and posted on official county website. The Commissioners' Court then must hold a public hearing on a day within seven calendar days after the date the proposed budget is filed, but before September 30th of the current year. The Commissioners' Court must take action on the proposed budget at the conclusion of the public hearing.

The Commissioners' Court may levy taxes only in accordance with the budget. After final approval of the budget, the Commissioners' Court may spend County funds only in strict compliance with the budget, except in any emergency. The Commissioners' court may authorize an emergency expenditure as an amendment to the original budget only in case of grave public necessity to meet an unusual and unforeseen condition that could have been included in the original budget through the use of reasonable diligent thought and attention. If the court amends the original budget to meet an emergency, the court must file a copy of its order amending the budget with the County Clerk and the clerk shall attach the copy to the original budget. Only the Commissioners' Court may amend the budget and shift funds from one budget account to another.

The original budget is adopted by Commissioners' Court. Amendments are made during the year and approved by Commissioners' Court. The budget should not be exceeded in any expenditures

category under state law. The budget was amended to reflect as closely as possible revenues and expenditures for the twelve-month period. Certain categories exceeded the budget estimates. These variances were due to the fluctuations in revenues and expenditures as opposed to the prorated budget estimates. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

The County Judge is, by statute, the Budget Officer of the County. He usually requests and relies on the assistance of the County Auditor to prepare the annual budget. After being furnished budget guidelines by Commissioners' Court, the County Judge, with the help of the County Auditor, prepares an estimate of revenues and a compilation of requested departmental expenditures and submits this data to Commissioners' Court. The County's legally adopted budget is at the function level. For internal management purposes, the budgets are detailed by line-item and entered into the accounting records. Comparisons of actual expenditures to budget are made on an ongoing basis. Formal budgetary integration is not employed for Capital Project Funds because of budgetary control achieved through legally binding contracts. Budgetary integration is not employed for the internal service fund because expenses are not controllable by management.

For the general funds, this comparison is presented on page 29 as part of the basic financial statements for the governmental funds. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the Supplemental Non-major Governmental Funds subsection of this report, which starts on page 83. Also included is project-length budget-to-actual comparisons for each governmental fund for which a project-length budget has been adopted (the grants fund and capital projects fund).

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates. The risk of large unfunded unforeseen expenses is reduced by the County since insurance coverage is obtained through private insurance company against catastrophic losses to infrastructure or property. A new cyber liability insurance policy was added this year due to unpredictable internet liability. The County elected to self-insure its group health insurance and carries individual stop-loss and aggregate claims stop-loss policies on group health insurance claims to minimize risk. Another beneficial financial forecasting tool is the utilization of the Texas County and District Retirement System (TCDRS) pension plan. The County provides retirement, disability, and death benefits for all of its regular employees through a nontraditional defined benefit pension plan with high returns (over 7%) for retirees.

Local Economy

The County currently enjoys a favorable economic environment and local indicators point to economic growth. The region has a varied industrial base that adds to the relative stability of employment. Despite the negative revenue trends for other state and local governments in the nation, Bee County has experience stable real property tax collections and significant increases in the market value of real property and minerals. As per the Bee County Appraisal District, the property values have decreased. The positive impact that various companies of the Eagle Ford Shell production has provided proves to be an indicator of economic growth in Bee County.

Long-term Financial Planning

To protect the County's assets and to further economic development, the Commissioners' Court issued \$7,085,000, Combination Tax and Revenue Certificates of Obligation, Series 2003, dated July 1, 2003 for constructing and improving the coliseum and the courthouse. A Justice Center was also built across the street from the courthouse. In 2012, the County refinanced the obligation debt for a lower interest rate to save tax payer's money under the Combination Tax and Revenue Certificates of Obligation, Series 2012. The certificates will be paid back over the next 20 years. State statutes limit the amount of debt a governmental entity may issue at 25 percent of its total assessment valuation of real property. The County is well within its debt limits.

Policy Impact

Policies adopted in the last years include the fund balance policy that explains the different types of funds maintained by the County as required by GASB54, whistle blower policy which allows employees to disclose information without the threat of retaliation, and the designated area smoking policy that prohibits smoking in any county owned building or vehicle. Due to the rapid growth of ever-changing media devices, a social networking policy was also established to address issues associated with negative communication about or amongst employees that produce adverse consequences that are subject to disciplinary actions, up to and including termination of employment.

The Commissioners' Court adopted a formal investment policy for the County and designated the county auditor as the County's investment officer. The general objectives set forth in the policy provide for financial security and optimum liquidity of County funds while achieving the maximum yield on funds invested and maximum levels of invested funds.

As suggested by the third party independent insurance vendor risk assessor, a new policy regulating hot work guidelines in the welding field will be created in the next year. As also suggested by the risk assessor, the Sheriff's Office is updating the jail and strip search policies to reduce liability.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Bee County for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2011. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. The CAFR must satisfy both accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The County has received a Certificate of Achievement for the last twenty-one years (fiscal year ended 1991 through 2011). The current report continues to conform to the Certificate of Achievement program requirements and is submitted to the GFOA.

The State Comptroller's Office issued Bee County the Texas Comptroller Gold Leadership Circle on February 14, 2012 for the first time for setting the bar in financial transparency and opening the books to the public via an official Bee County website. The program recognizes local governments across

Texas that are striving to meet a high financial transparency online by providing citizens with a clear, consistent, picture of spending and sharing information in a user-friendly format.

The presentation of the CAFR could not have been accomplished without the efficient and dedicated services of the staff at the County Auditor's office. Appreciation is extended to the Commissioners' Court, county officials, and all county employees who have given their support in planning and conducting the financial operations of the County.

Also, appreciation is extended to the District Judges for their support and guidance in matters relating to the discharge of my duties as county auditor.

Respectfully submitted,

Jaroline Costley

Blandina V. Costley Bee County Auditor

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Bee County Texas

For its Comprehensive Annual Financial Report for the Fiscal Year Ended September 30, 2011

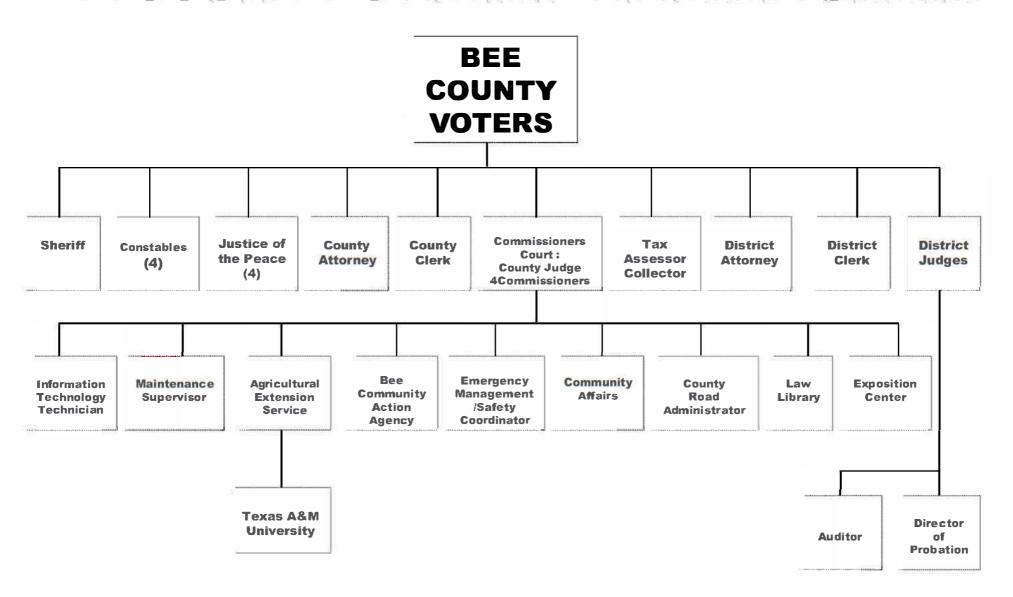

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITORS' REPORT

To the Honorable County Judge and County Commissioners Bee County, Texas

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Bee County, Texas, as of and for the year ended September 30, 2012, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Bee County, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Bee County, Texas, as of September 30, 2012, and the respective changes in financial position, and cash flows, where applicable, thereof, and the respective budgetary comparison for the General Fund, Headstart Fund, Health Care Fund I and II for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2013, on our consideration of Bee County, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information on pages 12 through 21 and 29 through 32 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Bee County, Texas' financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Nonprofit Organizations, and is also not a required part of the financial statements of Bee County, Texas. The combining and individual nonmajor fund financial statements and schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

February 21, 2013

Pattille, Brom & Hill, CCP.

Management's Discussion and Analysis

As management of Bee County, we offer readers of the Bee County financial statements this narrative overview and analysis of the financial activities of Bee County for the fiscal year ended September 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i – vi of this report.

This is the ninth year Bee County is presenting financial information in the new reporting format required by Governmental Accounting Standards Board (GASB) Statement 34.

Financial Highlights

- The assets of Bee County exceeded its liabilities at the close of the most recent fiscal year by \$49,720,954.
- Restricted net assets of \$4,623,771 are funds set aside for specific purposes such as: road and bridge, debt service and capital projects.
- As of the close of the current fiscal year, Bee County's governmental funds reported combined ending fund balances of \$7,755,821.
- The unreserved fund balance for the General Fund was \$3,083,924, or 42% of total General Fund expenditures, an increase from last year's rate of 26%. The major factors of the increase are explained later in the analysis.
- The County's total debt decreased by \$255,000 during the current fiscal year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Bee County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of Bee County's finances in a manner similar to a private-sector business. They present the financial picture of the county from an economic resource measurement focus using the accrual basis of accounting. These statements include all assets of the County, including infrastructure, and all liabilities. Additionally, certain adjustments have occurred to eliminate duplications in regards to interfund activity such as premiums charged by the self-insurance fund, transfers, receivables and payables.

The statement of net assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of Bee County is improving or deteriorating. In fiscal year 2010, the Bee County Commissioners' Court set the capital outlay minimum amount to be \$500. This action prompted \$1,156,534 of assets to be declared surplus to alleviate the accumulation of completely depreciated assets under \$500. However, even with this policy in place, the County's net assets still reflect a positive difference from the liabilities.

The statement of activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change

occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes, debt payments, and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, buildings and facilities, administration of justice, law enforcement and corrections, social services, health, safety and sanitation, agriculture, education and consumer sciences, roads, bridges and transportation. Other law enforcement and attorney representation activities that have arisen in this fiscal year are due to additional funds received through grants. This extra source of funding has increased the amount of community services provided to the citizens of Bee County temporarily until the grants come to an end.

The government-wide financial statements can be found on pages 22 and 23 of this report.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. A Fund Policy was adopted by Court on February 13, 2012 to clarify fund activity and to comply with GASB 54 requirement.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of unencumbered resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. In analyzing the reconciliation of the statements, it is clear that total governmental funds increase and net assets decreased due to the required reporting methods of some of the governmental activities.

Bee County maintains 4 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statements of revenues, expenditures, and changes in fund balances for the General Fund, Health Care Fund I, Health Care Fund II, and Headstart Fund. Data from the other 40 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

Bee County adopts an annual appropriated budget for its General Fund, certain Special Revenue Funds, and the Debt Service Fund. Budgetary comparison statements have been provided for the General Fund, Health Care Fund I & II and the Headstart Fund to demonstrate compliance with these budgets. In reviewing a historical analysis of the budgets, it shows that the county strives to maintain the set projected budgets for all funds. The basic governmental fund financial statements can be found on pages 24 through 27 of this report.

Proprietary Funds: The only type of proprietary fund that Bee County maintains is Internal Service Funds, which are an accounting device used to accumulate and allocate costs internally among the County's various functions. Bee County uses two Internal Service Funds to account for the Group Insurance Service and the Fuel

Service. Because both of these services predominantly benefit governmental activities, they have been included within governmental activities in the government-wide financial statements.

Propriety funds provide the same type of information as the government-wide financial statements, only in more detail. The Internal Service Fund is presented as a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report. When comparing the amount of proprietary fund net assets between current and the prior fiscal year, an increase of \$397,422 (311%), is seen partially due to the nation-wide increase of fuel reimbursement charges and improved method of collection procedures implemented this year increasing medical insurance premium collections. The basic proprietary fund financial statements can be found on pages 33 through 35 of this report.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support Bee County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. Unlike the proprietary funds, the fiduciary funds have decreased from prior fiscal year by \$399,401, or 13% of prior year's net assets, reflecting an increase in non-county required programs. Therefore, County community members have seen a decrease in non-county required program services. The basic fiduciary fund financial statements can be found on page 36 of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 37 through 59 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and Internal Service Funds are presented immediately following the notes to the financial statements. Combining and individual fund statements and schedules can be found on pages 61 through 103 of this report.

FINANCIAL ANALYSIS OF GOVERNMENT-WIDE STATEMENTS

As stated earlier, net assets may serve over time as a useful indicator of a government's financial position. At the close of the 2012 fiscal year, the County's assets exceeded liabilities by \$49,720,954 and are summarized as follows:

BEE COUNTY'S NET ASSETS Primary Government

Governmental Activities 2012 2011 Current assets 23,882,536 22,903,246 49,049,708 48,052,138 Capital assets 71,934,674 71,952,954 Total assets Current liabilities 16,386,855 15,233,557 Noncurrent liabilities 6,980,163 7,227,898 22,213,720 23,614,753 Total liabilities Net assets: Invested in capital assets, net of related debt 41,322,138 41,821,810 Restricted 4,623,771 4,113,845 3,775,045 2,402,546 Unrestricted 49,720,954 Total net assets 48,338,201

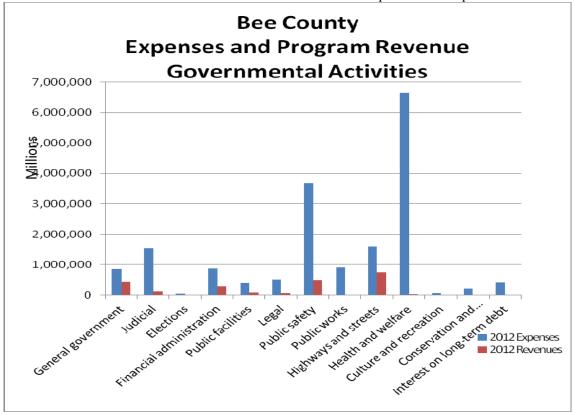

A portion of the County's net assets (\$41,322,138) reflects investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment). Bee County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. It should be noted that the resources needed to repay the debt associated with these capital assets must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities. The amount of assets within the county still exceeds the amount of liability to assure that debt obligations are met in a timely manner.

BEE COUNTY'S CHANGES IN NET ASSETS

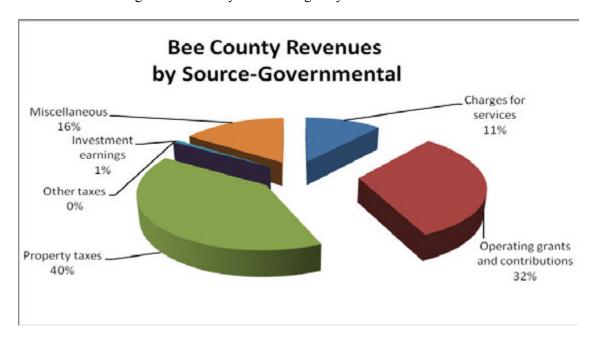

Primary Government Governmental Activities 2012 2011 REVENUES Program revenues: \$ 2.186.201 2,042,600 Charges for services \$ 6,101,666 Operating grants and contributions 6,890,247 General revenues: Property taxes 7,681,657 6,499,133 Other taxes 26,481 24,153 677,719 Investment earnings 135,939 2,967,703 3,034,046 Miscellaneous 19,099,647 19,167,898 Total revenues **EXPENSES** General government 859,400 1,747,177 Judicial 1,550,319 1,720,670 Elections 36,607 53,748 Financial administration 875,074 878,826 Public facilities 399,157 234,867 Legal 492,720 535,605 Public safety 3,676,394 3,764,470 Public works 904,515 758,355 Highways and streets 1,603,858 5,511,051 Health and welfare 6,649,993 3,975,589 Culture and recreation 65,795 79,220 Conservation and development 197,846 215,853 322,045 Interest on long-term debt 412,700 Total expenses 17,724,378 19,797,477 CHANGE IN NET ASSETS 1,375,269 629,579) NET ASSETS, BEGINNING 48,338,201 46,926,479 7,484 2,041,301 PRIOR PERIOD ADJUSTMENT 49,720,954 48,338,201 NET ASSETS, ENDING

Property taxes are collected to support government activity through the General Fund, Special Road and Bridge Fund, and Debt Service Fund. Property tax revenues increased \$1,182,524 (15%) from last fiscal year. Although overall tax rates decreased slightly from 2011 to 2012 by 5% in both residential and commercial areas as well as a decrease of 2% on assessed values by the Appraisal District on established properties, results were still positive in an increase of property tax revenues collected. Further analysis of the types of principal property being assessed and taxed provides an indication to the type of industry growth in Bee County. As shown on table 8, the majority of the top 10 taxpayers are from the gas and oil minerals industry. This may be indicative of a strong growth pattern for the future ten to twenty years in this industry. A second positive influence that offset the decrease of

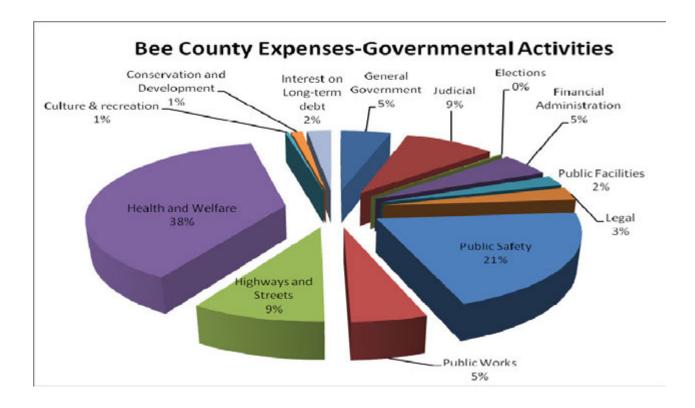

property valuations was the increase of tax collections within the penalties and interest and delinquent tax accounts as reflected on the schedule of revenues due to new collections procedures implemented.

The chart above compares expenses and direct revenues associated with like County services. By interpreting the chart, the data indicates that the higher expenses are in the public safety, health & welfare, and highway & streets fields whereas the revenue is generated mostly from the highways and streets activities.

The pie chart above includes other revenues, i.e. tax collections that are not tied to individual services provided by the County. After analyzing the chart, the data indicates that most of the revenue sources for the County are in the property taxes and operating grants and contribution sectors.

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

Bee County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The above chart reflects that the least amount of expenditures are in the elections, culture & creation, and the conservation & development activities, which are recorded as individual funds in the general ledger.

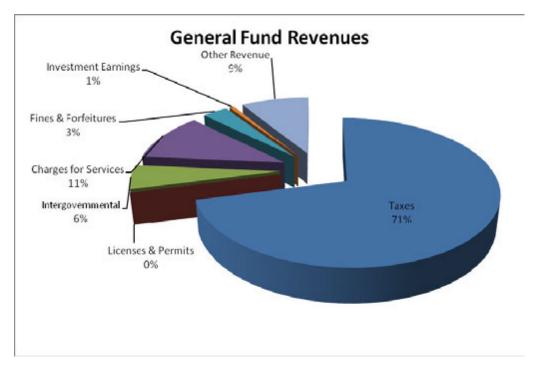

Governmental Funds: The focus of this section is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Bee County's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

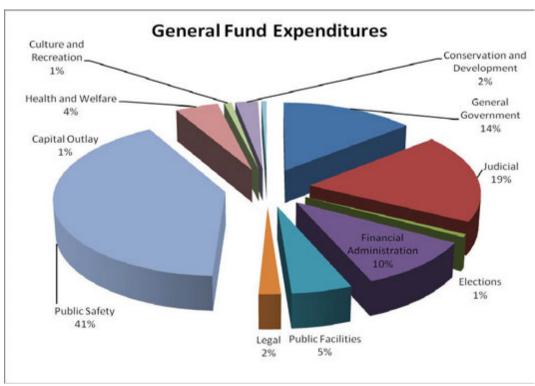

As of the end of the current fiscal year, Bee County's governmental funds reported combined ending fund balances of \$7,755,821, an increase of \$1,752,833 in comparison with the prior year mainly due to a larger cash flow in the general fund driven by the oil business in the area.

General Fund: The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance of the general fund was \$3,083,924. The debt service fund is included within the other non-major government category, as well as the road and bridge fund, capital projects, grant fund and other funds restricted to specific purposes. The debt service fund has a total fund balance of \$219,943. As explained earlier, this increase resulted from intentional commissioner's court action to adopt a balanced budget by maintaining taxes and cutting expenses. As a measure of the general fund's liquidity, it may be useful to compare both the unreserved fund balance and total fund balance to total fund expenditures. Unreserved general fund balance for 2012 represents 42% of the total general fund expenditures. This fund balance total expenditure ratio indicates a positive financial position. The commissioner's court has set goals which include applying the general fund expenditures and transfers out to be approximately three months of annual expenditures for the fund balance. This practice was formally adopted in the fund balance policy as required by GASB 54.

Other governmental funds have a total combined fund balance of \$933,741. The debt service fund is included within this category, as well as the road and bridge fund, grant fund and other funds restricted to specific purposes. The debt service fund has a total fund balance of \$219,943, an increase of \$75,781 as compared to the prior year.

The reasons for changes in the net assets were a result of operational variances and adjustments to the overall capital assets that resulted in a decrease to the overall net assets due to capital adjustments. General Fund revenues and expenditures are graphically depicted below. When an analysis is done on the General Fund Revenues and Expenditures charts, it is clear to see that most revenue is generated by taxes and most expenses are in the public safety field. Therefore, the data maybe an indicator of how the Bee County Commissioners' Court strive to give the community members safety and other services as a benefit of taxes collected.

Other Financing Resources

Proprietary Funds. The County's only type of proprietary fund is an internal service fund, commonly referred to as the insurance fund. The information is presented the same as in the government-wide financial statements, but in more detail.

Unrestricted net assets of the internal service funds at the end of the year amounted to \$525,208 with \$441,535 belonging to the Group Health Insurance fund and \$83,673 belonging to the Fuel Farm Fund.

The self-insurance fund reports all liabilities on the full accrual basis and includes claims that have occurred but not yet been reported. Complete details on each fund can be found on pages 57 through 58. The breakdown of each fund can also be found in the Combined Statement of Revenue, Expenses & Changes in Fund Net Assets Internal Service Funds report.

GENERAL FUND BUDGETARY HIGHLIGHTS

In total, the original budget and the final amended budget expenditures were increased by \$631,564. The County made significant changes that were made between the functions. The actual expenditures for this fiscal year (budget basis) ended \$181,653 under the total appropriations for expenditures. Actual revenues came in \$1,647,071 over budget, or 23% of the budgeted revenue. Total general fund expenditures and transfers did not consume 100% of the budgeted expenditures. Two percent of the budget remained from the amended budget to roll into fund balance. Adjustments were made to the budget original and final budget for favorable and unforeseen budget issues.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets: The County's investment in capital assets for its governmental activities as of September 30, 2012, amounts to \$1,361,480. This investment in capital assets includes building improvements, machinery and equipment. GASB Statement No. 34 requires the County to report and depreciate new infrastructure assets (roads, bridges, airport, etc.) effective with the beginning of the current year. Neither their historical cost nor related depreciation has historically been reported in the financial statements, prior to fiscal year 2010.

Major capital projects completed during year is as follows:

Building and improvements	\$ <u>6,933</u>
Total projects completed	\$ <u>6,933</u>

In 2012, a formula correction was made to not include items that were already disposed into the depreciation figures. Total investment in the County's capital assets decreased overall by \$910,685, or 1.9% due to the capital additions to building improvements, machinery and equipment.

CAPITAL ASSET AND DEBT ADMINISTRATION

BEE COUNTY, TEXAS CAPITAL ASSETS (Net of depreciation)

Governmental Activities 2012 2011 \$ 292,638 \$ 292,638 Land 25,689,520 27,057,490 Building and improvements Furniture, equipment and machinery 1.551.152 3.715.412 Infrastructure 20,518,828 17,984,168 Total capital assets, net \$48,052,138 \$49,049,708

Additional information on the County's capital assets can be found in note IV-C on page 51 of this report for more detailed note information on capital asset activity.

Long-term debt:

At September 30, 2012, the County had limited general tax obligation bonds and certificates of obligation outstanding in the amount of \$6,730,000. This total debt is backed by the full faith and credit of the County. Chapter 1301, as amended, of the Texas Government Code, limits the amount of bonds that is payable from the \$0.80 Constitution tax rate.

The County is empowered by law to authorize, issue, and sell debt obligations. General obligation bonds are backed by the full faith and credit of the County, including the County's power to levy taxes to ensure repayment of the debt. The Bee County Commissioners' Court approves the issuance of debt and related costs associated with the issuance.

Bee County's total debt as September 30, 2012 stands at \$6,730,000, a decreased of \$255,000 from last year. Obligation Series 2003 was refinanced to Series 2012 this year for interest rate savings. Additional information on the County's long-term liabilities can be found in note IV-F on page 54 of this report.

Bee County, Texas Long-Term Debt

Governmental Activities

	2012	2011
Total General Obligation Refunding Bonds & Pledged Certificates	\$6,730,000	\$6,985,000

The County currently maintains an "A Stable" rating from Standard & Poor's for general obligation debt. Additional information on the County's long-term debt are in the notes to the financial statements and the statistical section of this report. For more detailed information on long-term debt activity, please refer to the relevant disclosures in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate for Bee County is currently 6.5% at September 30, 2012, which compares favorably to the State's average unemployment rate of 6.6% in September 2012.

Fiscal year 2012 reflected economic growth in Bee County as residents recuperated from previous year's downturns. The outlook for Bee County is not as bleak as other US communities. Bee County is holding its' own. The eagle ford shale oil and natural gas production is creating a positive influx of business and sales tax in Bee County. Retail sales are good, causing sales tax to remain constant and most months increasing over last year. The approved permit in May 15, 2012 for Uranium Energy Corp. to explore approximately 82,779 acres in East Bee County is an example of this economic growth due to minerals. Beeville has a lot of traffic going through helping out local stores. The increase of economic growth due to this oil industry is projected to stabilize within the next ten years.

REQUESTS FOR INFORMATION:

This financial report is designed to provide a general overview of Bee County's finances for all those with an interest in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the following:

Amounts not reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.

Other long-term assets are not available to pay for current-period expenditures and, therefore, are deferred in the funds.

An Internal Service Fund is used by management to charge the costs of certain capital assets to individual funds. The assets and liabilities of the Internal Service Fund are included in the governmental activities in the statement of net assets.

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED SEPTEMBER 30, 2012

Net change in fund balances - total governmental funds:	\$	1,666,612
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report outlays for capital assets as expenditures. However, in the statement of activities the cost of those assets is allocated over their useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		(910,685)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(17,667)
The issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		293,212
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(45,477)
Internal Service Funds are used by management to charge the costs of certain capital assets to individual funds. The net revenue of certain activities of Internal Service Funds is reported with governmental activities.		389,274
Change in net assets of governmental activities	\$ <u></u>	1,375,269

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Bee County, Texas, (the County) uses a commission form of government under the laws and statutes of the constitution of the State of Texas. The County provides various services to advance the welfare, health, morals, comfort, safety, and convenience of the County and its inhabitants. A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

A. Reporting Entity

Bee County, Texas was organized in 1858. The County operates using a commission form of government under the statutes and the Constitution of the State of Texas. The County (government) provides various services to general government (tax collection, property records, auto registration), judicial (district attorney, courts, juvenile), law enforcement and corrections (sheriff, constables, jail), roads, bridges and transportation and social services.

At the beginning of the 1997 year, the Bee County Regional Medical Center was leased to Spohn Health of Corpus Christi, Texas so the County does not have any control of this operation. The funds of the Bee County Regional Medical Center at September 30, 2012 are accounted for in Health Care Special Revenue Fund which uses these funds and other funds to provide medical services to indigents as well as other health and welfare costs. The County (government) is required by generally accepted accounting principles to present the financial statements of the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operation and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government. The government did not have any discretely presented component units in fiscal year 2011. Also, the County is not a component unit of any other entity.

The accompanying basic financial statements present the government and its blended unit of the Bee County Community Action Agency defined according to criteria in GASB Statement No. 14, The Financial Reporting Entity. The Agency maintains and performs administrative functions for the federal grants and the Bee County Commissioner's court is the governing body. The accompanying basic financial statements present the government and its blended unit of the Bee County Community Action Agency defined according to criteria in GASB Statement No. 14, The Financial Reporting Entity.

The Bee County Community Action Agency is a blended component unit of Bee County. It was created to provide service to individuals and families of low income, included but not limited to, assistance to elderly and disabled adults, rural transportation, home improvements and weatherization and educational services for children. The agency is operated under the supervision of the County Commissioners. The Board of Directors consist of the members of the Commissioners and appointed positions and in the event of dissolution, net assets, if any after reversion back to the granting agency, would revert to the County.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenue.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

Intergovernmental revenues, rents, commissions, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measureable and available only when cash is received by the County, which includes delinquent property taxes, licenses, fees and fines. For grants, like the government-wide financial statements, the revenue is recognized when all the eligibility requirements have been met.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Measurement Focus, Basis of Accounting and Financial Statement Presentation</u> (Continued)

The County reports the following major governmental funds:

The <u>General Fund</u> is the County's primary operating fund. It accounts for all financial resources of the County, except those required to be accounted for in another fund. Revenue sources are categorized as taxes, license & permits, intergovernmental revenue services and fines and forfeitures. The majority of revenue stems from sales and ad valorem taxes.

The <u>Health Care I Fund</u> is a Special Revenue Fund used to account for the initial hospital renovations. The revenue stems from hospital lease payments established by 28 year amortization schedule with a 6% interest rate.

The <u>Health Care II Fund</u> is a Special Revenue Fund used to account for the additional/facility expansion costs. The revenue source stems from hospital lease payments established by 28 year amortization schedule with 6% interest rate.

The <u>Headstart Fund</u> is a Special Revenue Fund used to account for education expenditures for lower income children. The revenue source is from federal grant 93.600.

All other governmental funds are combined and reported as nonmajor. Nonmajor funds include road fund, inland parks, grants, capital projects and other special revenue funds.

Additionally, the County reports the following fund types:

The <u>Debt Service Fund</u> is used to account for the accumulation of resources for, and payment of, general long-term debt principal, interest and related costs.

The <u>Capital Projects Fund</u> is used to account for the acquisition of capital assets or construction of major capital projects.

<u>Internal Service Funds</u> account for and finance the County's uninsured risks of loss from workers compensation coverage, general liability, and group health insurance. Revenues are derived from County contributions, employee and retiree/cobra premiums, investment income, and premiums from some external entities. Expenses are for benefits, claims and administrative expenses.

<u>Fiduciary Funds</u> are classified into private purpose and agency funds. The County only has agency funds which are used to account for assets held by the County on behalf of individuals and other governments. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements and this includes activity from the internal service funds.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity

1. Deposit and Investments

The County's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of one year or less from the date of acquisition. State statues and the County's official investment policy authorized the County to invest in obligations of the U.S. and its agencies, certificates of deposit, local government pools, repurchase agreements, money market mutual funds and direct obligations of the State of Texas of its agencies.

Investments for the County, as well as for its component units, are reported at fair market value. TexPool is a local government investment pool that operates in accordance with appropriate state laws and regulations under oversight from the Texas State Comptroller. The reported value of the pool is the same as the fair market value of the pool shares. All investment income is recognized as revenue in the appropriate fund's statement of activity and or statement of revenues, expenditures and changes in fund balance.

The County considers all highly liquid investments with original maturities of less than 90 days to be cash equivalents. Cash and cash equivalents at year-end include demand deposits and repurchase agreements. Statutes give the County the authority to invest the funds in obligations of the United States, direct obligations of the State of Texas, other obligations guaranteed or insured by the State of Texas or the United States, obligations of states, agencies, counties, or cities of any state that have been rated not less than one or its equivalent by a nationally recognized investment firm, certificates of deposit guaranteed insured or secured by approved obligations, prime domestic bankers' acceptances, commercial paper, fully collateralized repurchase agreements, and an SEC-registered, no-load money market mutual fund whose assets consist exclusively of approved obligations.

State statutes and the adopted Investment Policy govern the Agency's cash and investment policies. The Agency's policies governing bank deposits require depositories to be FDIC-insured institutions and depositories must fully collateralize all deposits in excess of FDIC insurance limits. The depository bank deposits for safekeeping and trust with the Agency's agent bank, approved pledged securities in an amount sufficient to protect the Agency funds on a day-to-day basis. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC")-Insurance.

2. Receivables and Payables

All trade and property tax receivable are shown net of an allowance for uncollectibles. Trade receivables are directly written-off when circumstances indicate a receivable is no longer collectible usually within one year a receivable when circumstances indicate a receivable is no longer collectible usually within one year a receivable was incurred. The property tax receivable allowance is equal to 100 percent of the balances older than 11 years plus .5 percent of the balances less than 11 years old which includes the current year's levy.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

2. Receivables and Payables (Continued)

Property taxes are levied prior to September 30 based on taxable value as of January 1 and become due October 1 and past due after January 31. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. On the governmental fund financial statements outstanding property taxes receivable is reported as deferred revenue.

Accounts receivable include amounts due from grantors for approved grants for specific programs and reimbursements for services performed by the County. Program grants are recorded as receivables and unearned revenue (a liability) at the time the contracts are approved and signed. Grant revenues are recognized when eligibility requirements established by the grantor have been met at which time unearned revenue (the liability account) is reduced.

Lending or borrowing between funds is reflected as "due to or due from" (current position) or "advances to/from other funds" (non-current). Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources. Interfund activity reflected in "due to or due from" is eliminated on the governmental-wide statements.

3. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories comprise of expendable supplies and gasoline held for consumption. All inventory items are expensed when used. Report inventories are offset by a reservation of fund balance, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets. Inventory policy on government-wide statements is consistent with fund statements.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. In the fund financial statements, advances and prepayments are offset by a reservation of fund balance which indicates they do not represent "available spendable resources".

4. Capital Assets

Capital assets, which include property, buildings and improvements and equipment, are reported in the government-wide financial statements. Capital assets are defined as assets with an initial, individual cost of \$500 or more and an estimated useful life in excess of two years.

Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

4. <u>Capital Assets</u> (Continued)

Property, plant and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements	20
Equipment	10 - 15
Vehicles	6
Furniture	12
Heavy equipment	15
Computer equipment	7

GASB Statement No. 34 requires the County to report and depreciate new infrastructure assets effective with the beginning of the current year. Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the County. Neither their historical cost nor related depreciation has historically been reported in the financial statements.

5. Compensated Absences

Vacation, sick leave, benefits and compensatory ("comp") time are accrued by full time county employees according to guidelines established by the County's personal policies. Said policies allow for the accumulation of sick leave of one day per month up to a maximum of thirty days, but do <u>not</u> provide for payment of sick leave accruals. (i.e., sick leave not taken in any given year is lost and cannot be carried over to the next year). Accordingly since such accumulated amounts are nonvesting, unused sick leave at September 30, 2012 has not been accrued in the accompanying financial statements.

The County's policy for vacation leave allows for 10 working day of vacation leave. Vacation leave does not accumulate if not used within the year (i.e., vacation leave not taken cannot be carried over to the following year). However, any unused vacation leave up to a maximum of 10 days per year is paid to an employee upon separation from service.

Compensatory ("comp") time off is granted at the rate of one and one-half hour time off for every hour overtime worked and can be carried forward indefinitely. At September 30, 2012, the County's liability for accrued vacation pay and the liability for compensatory time was \$250,163.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

6. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Federal and State Grants

Revenue from federal and state grants is recognized on the basis of actual expenditures incurred, limited to the amount of the total grant award. Shared revenue is recognized based on the fiscal period to which the entitlements received apply.

8. Fund Equity

Net Assets Classifications

Net assets in the proprietary fund financial statements and the government-wide financial statements are classified in three categories: 1) Net assets invested in capital assets, net of related debt, 2) Restricted net assets, and 3) Unrestricted net assets.

Fund Balance Classifications

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. Fund balance is classified as non-expendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the government funds. The classifications are as follows:

Nonspendable – Amounts that cannot be spent because they are either not in spendable form or they are required, legally or contractually, to be maintained intact. This classification includes inventories, prepaid amounts, assets held for resale, and long-term receivables (if the proceeds from the collection of the receivables are not restricted, committed, or assigned).

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

8. Net Assets and Fund Balances (Continued)

Restricted – As in the government-wide financial statements, these amounts represent assets that have externally imposed restrictions by creditors, grantors, contributors, or laws or regulations of other governments. Assets may also be restricted as imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The County's highest level of decision-making authority resides with the Commissioners Court. The constraints imposed by the formal action of the Commissioners Court remain binding unless removed or changed in the same manner employed to previously commit those resources.

Assigned – Amounts that are constrained by the County's intent to be used for specific purposes, but that do not meet the criteria to be restricted or committed. Such intent should be expressed by the Commissioners Court or its designated officials to assign amounts to be used. Constraints imposed on the use of the assigned amounts can be removed with no formal action.

Unassigned – Amounts that have not been restricted, committed, or assigned.

For the classification of fund balances in the governmental funds, the County considers expenditures to be funded from the most restrictive category first when more than one classification is available.

In the proprietary fund financial statements and in the government-wide financial statements, restricted net assets are reported for amounts that are externally restricted by 1) creditors, grantors, contributors, or laws and regulations of other governments or 2) law through constitutional provision or enabling legislation.

9. Use of Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. <u>Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the</u> Government-wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between the fund balance for total governmental funds on the governmental fund balance sheet and the net assets for governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that capital assets are not financial resources and are therefore not reported in governmental funds. In addition, long-term liabilities, including bonds payable, are not due and payable in the current period and are not reported as liabilities in the funds. The details of capital assets and long-term debt at the beginning of the year were as follows:

Capital Assets at the Beginning of Year	Historic <u>Cost</u>	Accumulated Depreciation	Net Value at the Beginning of Year	Change in Net Assets
Land Buildings & Improvements Furniture & Equipment	\$ 292,638 35,109,297 6,629,246	\$ - (8,051,807) (2,913,834)	\$ 292,638 27,057,490 3,715,412	
Infrastructure Change in Net Assets	27,361,537	(9,377,369)	17,984,168	\$ 49,049,708
Long-term liabilities at the Beginning of Year			Payable at the Beginning of Year	
Bonds Payable Capital Leases Compensated Absences			\$ (6,985,000) (38,212) (204,686)	
Change in Net Assets				\$ (7,227,898)
Net Adjustment to Net As	sets			\$ 56,277,606

B. <u>Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities</u>

The governmental fund statement of revenue, expenditures and changes in fund balances includes a reconciliation between the net changes in fund balance as shown on the governmental fund statement of revenues, expenditures and changes in fund balances and the changes in net assets of governmental activities as reported on the government-wide statement of activities. One element of that reconciliation explains that current year capital outlays and debt principal payments are expenditures in the fund financial statements, but should be shown as increases in capital assets and decreases in long-term debt in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

This adjustment affects both the net asset balance and the change in net assets. The details of this adjustment are as follows:

Current Year Capital Outlay		Amount	justments to es in Net Assets	justments in Net Assets
Buildings & Improvements	\$	1,380	\$ 1,380	
Furniture & Equipment Infastructure		224,922 1,112,485	 224,922 1,112,485	
Total Capital Outlay			_	\$ 1,338,787
Depreciation Expense				 (2,268,459)
Net change in Capital Ass	ets			\$ (929,672)
Debt Principal Payments				
Bonds Payable	\$	415,000	\$ 415,000	
Capital Lease		38,212	38,212	
Compensated Absences	_	250,163	 250,163	
Net change in Long-term I	Liabi	ilities		\$ 703,375

Another element of the reconciliation is described as various other reclassifications and eliminations necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. This adjustment is the result of several items. The details for this element are as follows:

Property taxes	\$ (17,667)
Internal service fund activities	 389,274
Net adjustment to increase net changes in fund balances -	
total governmental funds to arrive at changes in net	
assets of governmental activities	\$ 371,607

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The Commissioners Court may levy taxes only in accordance with the budget. After final approval of the budget, the Commissioners Court may spend County funds only in strict compliance with the budget, except in any emergency. The Commissioners Court may authorize an emergency expenditure as an amendment to the original budget only in case of grave public necessity to meet an unusual and unforeseen condition that could have been included in the original budget only in case of grave public necessity to meet an unusual and unforeseen condition that could have been included in the original budget through the use of reasonable diligent thought and attention. If the court amends the original budget to meet and emergency, the court must file a copy of its order amending the budget with the County Clerk and the clerk shall attach the copy to the original budget. Only the Commissioners Court may amend the budget and shift funds from one budget account to another.

The original budget is adopted by Commissioners Court and filed with the County Clerk. Amendments are made during the year and approved by Commissioner Court. The budget should not be exceeded in any expenditures category under state law. The budget was amended to reflect as closely as possible revenues and expenditures for the twelve-month period. Certain categories exceeded the budget estimates. These variances were due to the fluctuations in revenues and expenditures as opposed to the prorated budget estimates.

The County Judge is, by statute, the Budget Officer of the County. He usually requests and relies on the assistance of the County Auditor to prepare the annual budget. After being furnished budget guidelines by Commissioners Court, the County Judge, with the help of the County Auditor, prepares an estimate of revenues and a compilation of requested departmental expenditures and submits this data to Commissioners Court.

The Commissioners Court invites various department heads to appear for a hearing concerning the department's budget request. Before determining the final budget, Commissioners Court may increase or decrease the amounts requested by various departments. Amounts finally budgeted may not exceed the estimate of revenues and available resources. Also, amendments can be made within the above guidelines.

When the Budget has been adopted by Commissioners Court, the County Auditor is responsible for monitoring the expenditures of the various departments of the County to prevent expenditures from exceeding budgeted appropriations and for keeping the members of Commissioner Court advised of the condition of the various funds and accounts. Appropriations lapse at year end.

The County's legally adopted budget is at the function level. For internal management purposes, the budgets are detailed by line item and entered into the accounting records. Comparisons of actual expenditures or expenses to budget are made on an ongoing basis. Budgets of the General, Special Revenue, and Debt Service are prepared on an annual basis. Formal budgetary integration is not employed for Capital Projects Funds because budgetary control is achieved through legally binding construction contracts. Budgetary integration is not employed for the internal service fund because expenses are not controllable by management.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

A. Budgetary Information (Continued)

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General, Special Revenue (except as noted in the following paragraph) and Debt Service Funds. All annual appropriations lapse at fiscal year-end.

Annually appropriated budgets are not adopted for all Special Revenue Funds. The Congressional Appropriations Grant, Rural Officer, Law Enforcement Grant, DA Pre-trial Intervention Services, TXCDGB Colonia, Sheriff Special Projects, Border Star Program, Skidmore Colonia Grant, BCAA Admin Fund, Child Care, Rural Transportation, Title III Nutrition, CEAP, Reliant Energy, CSBG, DOE/Exxon LINEAP, Home Program V, CPL/RE N-N, RPT Purchase, Vehicle Capital Replacement, Stop Violence Against Women, Technology Fund, CSBG McMullen, Border Star Technology Project, DOE ARRA, Pettus Water Project, Local Solicitation, CJD Grant and the Border Prosecutor Grant do not have legally adopted budgets. Accordingly, budget and actual comparisons do not include these funds.

The final budgets presented in this report reflect the budget amendments for all appropriation transfers processed during the fiscal year. More comprehensive accounting of activity on the budgetary basis is provided by request and for public inspection in The Office of the Bee County Auditor, 111S. St. Mary's Street, Suite 101, Beeville, Texas 78102.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders contracts and other commitment for the expenditure of resources are recorded to reserve that portion of the applicable appropriation – is utilized in the governmental funds to an extent. All outstanding purchase orders automatically carry over to and encumbrance the next budget year unless Commissioners Court individually approves them as an encumbrance to the prior year. Encumbrances outstanding at year-end are reported and reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year. As of September 30, 2012, no encumbrances were approved by Commissioners Court to carry forward as an encumbrance from the 2011/2012 budget.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Bee County's demand deposits were within the contracted depository bank (Prosperity Bank, Beeville, Texas) Tex-Pool Accounts and Robert W. Baird Investment firm, the very large majority of which were in interest bearing accounts.

The bank deposits were all secured at the balance sheet date by FDIC coverage and by pledged U.S. government securities (as authorized by state law) held by the pledging bank's agent or trust in Bee County's name, deemed collateralized under Texas law. Both the county and the depository band maintain copies of the safekeeping receipts elated to the pledge securities.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

IV. DETAILED NOTES ON ALL FUNDS (Continued)

A. Deposits and Investments (Continued)

Tex-Pool is not SEC regulated but is governed by an independent board of directors and operates in accordance with appropriate state laws and regulations such as Robert W. Baird Investments. The reported value of the pool is the market value of the pool shares. At year-end, the County's carrying amount of deposits was \$5,318,918 and the bank balance was \$5,679,580.

The County's cash deposits at September 30, 2012 were covered by federal deposit insurance or collateralized by securities pledged in the County's name and held by a separate federal reserve bank contracted by the County's depository. The highest cash balances were on hand during the month of November 2011.

As of September 30, 2012, the County had the following investments:

					Inves	tment Mat	turities (ii	n years)		
		Fair		Less					N	lore
Investment Type	,	Value	7	Than 1		1 to 5		6 to 10		an 10
TexPool	\$	12,006	\$	12,006	\$	-	\$	-	\$	-
Robert W. Baird & Co. Inc.		3,007,693		3,007,693						
Total	\$	3,019,699	\$	3,019,699	\$		\$		\$	-

Additional policies and contractual provisions governing deposits and investments for the County are specified below:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in (1) obligations of the U. S. Treasury, certain U. S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust test procedures related to investment practices as provided by the Act. The County is in substantial compliance with the requirements of the Act and with local policies.

Credit Risk. In accordance with state law and the County's investment policy, investments in mutual funds and investment pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc. must be rated at least A. The County's investments in investment pools were rated AAA. As of September 30, 2012, the County's investments were rated AAA by Moody's Standard & Poor's.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

IV. DETAILED NOTES ON ALL FUNDS (Continued)

A. Deposits and Investments (Continued)

Concentration of Credit Risk. The County does not place a limit on the amount the County may invest in any one issuer. The County does not have a concentration of credit risk.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the County's deposits may not be returned to it. State statutes require that all deposits in financial institutions be fully collateralized by U. S. Government Obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of deposits. The County does not have a custodial credit risk.

Interest Rate Risk. In accordance with its investment policy, the County manages its exposure to declines in fair market values by limiting the average dollar-weighted maturity of its portfolio to a maximum of 365 days.

B. Receivables

Receivables as of year-end for the County's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

		_				
		Health	Health		Other	_
		Care	Care	Headstart	Nonmajor	
	General	Fund I	Fund II	Fund	Funds	Total
Receivables:						
Property taxes	\$ 251,602	\$ -	\$ -	\$ -	\$ 49,445	\$ 301,047
Accounts	171,807	6,384,595	7,840,055	-	44,868	14,441,325
Intergovernmental	12,522			207,694	530,762	750,978
Net total receivables	\$ 435,931	\$ 6,384,595	\$ 7,840,055	\$ 207,694	\$ 625,075	\$ 15,493,350

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

	U	navailable	Unearned		
Delinquent property taxes receivable	\$	301,047	\$	-	
Other		14,224,653		-	
	\$	14,525,700	\$	_	

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

IV. DETAILED NOTES ON ALL FUNDS (Continued)

C. Capital Assets

Capital asset activity for the year ended September 30, 2012, was as follows:

	Beginning				Ending
	Balance			Adjustments/	Balance
Governmental activities:	10/1/11	Increases	Decreases	Reclassifications	9/30/12
Capital assets, not					
being depreciated:					
Land	\$ 292,638	\$ -	\$ -	\$ -	\$ 292,638
Total assets not being depreciated	292,638				292,638
Capital assets, being depreceiated:					
Buildings and improvements	35,109,297	6,933	-	(2,012)	35,114,218
Furniture, equipment and machinery	6,629,246	242,062	(488,146)	10,856	6,394,018
Infrastructure	27,361,537	1,112,485		1,824,815	30,298,837
Total capital assets being depreciated	69,100,080	1,361,480	(488,146)	1,833,659	71,807,073
Less accumulated depreciation:					
Buildings and improvements	(8,051,807)	(900,191)	-	(472,700)	(9,424,698)
Furniture, equipment and machienry	(2,913,834)	(285,743)	532,596	(2,175,885)	(4,842,866)
Infrastructure	(9,377,369)	(1,086,231)		683,591	(9,780,009)
Total accumulated depreciation	(20,343,010)	(2,272,165)	532,596	(1,964,994)	(24,047,573)
Total capital assets being					
depreciated, net	48,757,070	(910,685)	44,450	(131,335)	47,759,500
Governmental activities					
capital assets, net	\$ 49,049,708	\$ (910,685)	\$ 44,450	\$ (131,335)	\$ 48,052,138

^{*} In fiscal year 2012, the County made numerous adjustments to the accumulated depreciation for straight-line depreciation correction for capital assets.

Depreciation expense was charged to functions/programs of the County as follows:

Governmental activities:

General government	\$ 152,823
Judicial	189,080
Elections	6,292
Financial administration	105,384
Public facilities	52,270
Legal	59,334
Public safety	441,269
Public works	108,567
Highways and streets	196,809
Health and welfare	928,693
Culture and recreation	7,897
Conservation and development	 23,747
Total depreciation expense - governmental activities	\$ 2,272,165

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

IV. DETAILED NOTES ON ALL FUNDS (Continued)

D. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of September 30, 2012, is as follows:

Due to/from other funds:

Receivable Fund	Payable Fund	A	mount
General Fund	Grants Fund	\$	573,310

These balances resulted from the time lag between the dates that 1) interfund goods and services are provided on reimbursable expenditures occur, and 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

Interfund transfers:

Transfer In	Trans fer Out	Amount		
General Fund	Elections & Speical Road Tax Fund	\$	55,000	
Road & Bridge/ DA Funds	General Fund & Road Tax Funds		842,936	
Victims of Crime Grant	General Fund		43,753	
		\$	941,689	

Transfers are used to: (1) move revenues from the fund required by statute or budget to collect them to the fund required by statute or budget to expend them; and (2) fund the County's match portion for grants.

E. Leases

The County has entered into two direct financing leases with Spohn Health System of Corpus Christi, Texas. The County is the lessor in the contracts. The two leases are for 30 years for the hospital building and 15 years for the Doctor's building. For these the County has set up the account Hospital Lease Receivable. The County recognized the receivable with a contra asset of deferred revenue lease interest. The difference is deferred revenue lease principal in the liabilities section of the balance sheets. When rents are received the interest portion of the lease is recognized as revenue and the principal portion is recognized as other financing sources. The Bee County Health Care Special Revenue Fund accounts for the hospital lease payments received and Courthouse Renovations Capital Projects Funds account for the lease payments received for the Doctors' Building lease payments.

In the event of the lessee defaulting on the contract then all property, equipment, and improvements will belong to the County. It is expected in that the lease will be renegotiated at the end of the 30 years.

The following is a schedule of the future minimum lease payments to be received and the present value of the lease payments to be received for the Hospital Building Lease as of September 30, 2012:

NOTES TO FINANCIAL STATEMENTS

IV. DETAILED NOTES ON ALL FUNDS (Continued)

F. Long-Term Liabilities

The following is a summary of the long-term liability transactions of the County for the year ended September 30, 2012.

Governmental acitivities	Balance September 30, 2011 Add		dditions	Retirements		Balance September 30, 2012		Amounts Due Within One Year		
General obligation bonds Capital leases Compensated absences	\$	6,985,000 38,212 204,686	\$	160,000 - 250,163	\$	(415,000) (38,212) (204,686)	\$	6,730,000 - 250,163	\$	450,000 - 5,003
Total governmental activities	\$	7,227,898	\$	410,163	\$	(657,898)	\$	6,980,163	\$	455,003

The compensated absences liability will be liquidated from the applicable funds where the expenditure occurs. The general fund and special revenue funds are the applicable funds where expenditures are usually utilized to retire compensated absences. The estimated amount of compensated absences due within one year from September 30, 2012 is \$5,003.

Bonds

During fiscal year 2007, the County authorized \$2,470,000 of General Obligation Refunding Bonds by an order passed by the Commissioners' Court. The bonds are payable from an ad valorem tax levied within the County. Interest at rates ranging from 3.00% to 3.80% are payable at February 15 and August 15 of each year.

During fiscal year 2007, the County authorized \$7,085,000 of Combination Tax and Limited Pledge Revenue Certificate of Obligation Bonds by an order passed by the Commissioners' Court. The bonds are by the combination of ad valorem taxes and revenue bonds. Interest at rates ranging from 3.75% to 4.60% are payable at February 15 and August 15 of each year.

The debt service requirements to maturity on all bonds are:

Fiscal year

Ending September 30,	, 	Principal		Interst	Total		
2013	\$	450,000	\$	183,981	\$	633,981	
2014		455,000		169,469		624,469

IV. DETAILED NOTES ON ALL FUNDS (Continued)

F. Long-Term Liabilities

Capital Leases

On February 9, 2009, the County entered into a capital lease with Government Capital Corporation to acquire a John Deere Rubber Tire Loader with Cab for a total cost of \$110,000. The interest rates for the leases range from 5.497% to 13.33%. The capital lease will be paid in three annual payments.

V. OTHER INFORMATION

A. Retirement Plan

Plan Description

Bee County, Texas, provides retirement, disability, and death benefits for all of its fulltime employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of 574 nontraditional defined benefit pension plans. TCDRS, in the aggregate, issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at P. O. Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service, but must leave their accumulated deposits in the plan to receive any employer-financed benefit. Members who withdraw their personal deposits in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated deposits and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Funding Policy

The employer has elected the annually determined contribution rate (ADCR) plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members.

Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. However, the governing body elected to pay a rate of 6.84% for the 2010 year that exceeded the actuarially determined rate as allowed by the provisions of the TCDRS Act. For the months of the accounting year in 2010 the employer contributed the actuarially determined rate of 9.00%.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

V. OTHER INFORMATION

A. Retirement Plan (Continued)

Funding Policy

The contribution rate payable by the employee members for calendar year 2010 is the rate of 6.84% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Annual Pension Act

For the employer's accounting year ending September 30, 2012, the annual pension cost for the TCDRS plan for its employees was \$463,112 and the actual contributions were \$463,112.

The annual required contributions were actuarially determined as a percent of the covered payroll of the participating employees, were in compliance with the GASB Statement No. 27 parameters based on the actuarial valuations as of December 31, 2008 and December 31, 2009, the basis for determining the contribution rates for calendar years 2008 and 2009. The December 31, 2009 actuarial valuation is the most recent valuation.

B. Employee Benefits Plan

The County provides group medical benefits to its employees on a self-funded basis. Stop-loss coverage is provided by an insurance company and an independent company serves as Claim Administrator.

All fulltime County employees (regularly scheduled to work at least 40 hours per week) are eligible for coverage under the Plan. Employees can enroll for personal coverage and dependent coverage.

A reconciliation of claims liabilities is shown below.

	 2012	2011			
Claims liabilities at October 1	\$ 3,598,287	\$	2,167,789		
Incurred claims	2,356,037		2,462,216		
Payments on claims	 (954,305)		(1,031,718)		
Claims liabilities at September 30	\$ 5,000,019	\$	3,598,287		

All claim liabilities are due within one year of the statement of net assets.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

V. OTHER INFORMATION (Continued)

C. Deferred Compensation Plan

The County offers its employees a deferred compensation plan created in accordance with the Internal Revenue Code Section 457. The plan, available to all County employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

The funds in the plan are held by Nationwide Retirement Solutions, Inc of Columbus, Ohio as the plan administrator for the County. The funds are held in trust by Nationwide Retirement Solutions, Inc. for the exclusive benefits of the employees and their beneficiaries who will receive these funds directly remitted by Nationwide Retirement Solutions, Inc. to the County employees and their beneficiaries, the County no longer owns the amounts deferred by the employees or related income on these amounts. Therefore, since the plan does not qualify to be included with the County's fiduciary funds there are not any plan assets included in the County's financial statements. It is noted, however, that at September 30, 2012, Nationwide Retirement Solutions, Inc. had \$658,736 (market value) in the plan for County employees.

D. Commitments and Contingencies

The County is the defendant in a number of lawsuits arising principally in the normal course of operations. In the opinion of the management, the outcome of these lawsuits will not have a material adverse effect on the accompanying combined financial statements, and accordingly, no provision for losses has been recorded.

The County participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at September 30, 2012, may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

E. Risk Management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County provides for the management of risks through a combination of self-insurance and traditional insurance. The amount of settlements has not exceeded insurance coverage for each of the past three fiscal years.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2012

V. OTHER INFORMATION (Continued)

F. Self-Insurance

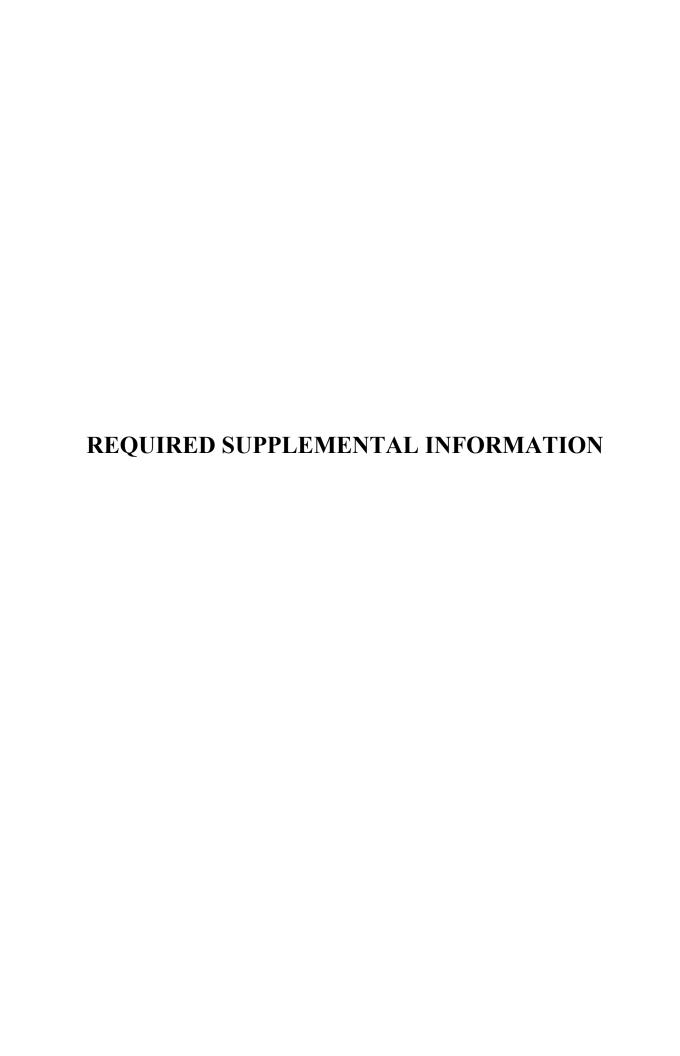

The County is partially self-insured against medical costs for its employees. The employees pay \$500 deductible with a \$2,000 family deductible. Then up to the first \$5,000, the employee pays 30% of the medical costs and the County pays 70% of the medical costs. From \$5,001 to \$125,000, the County pays 100% of the medical costs. After the County has paid \$125,000 the insurance company pays 100% of the costs up to \$1,000,000 lifetime maximum. The \$125,000 is paid once thereafter the amount reduces to \$75,000.

G. Deficit Fund Balance

None of the County's funds had a deficit fund balance at September 30, 2012 except for the Headstart Fund, Congressional Appropriations Grant, Rural Transportation Fund, Title III Nutrition Fund, RPT Purchase of Service, Vehicle Capital Replacement, and Stop Violence Against Women. These deficits are expected to be liquidated by future resources of the County.

H. Prior Period Adjustments

Adjustments have been made to correct beginning fund balances for activity that should have been reflected in the prior fiscal years. In fiscal year 2012, the County made numerous adjustments to the buildings, furniture and equipment and accumulated depreciation for capital assets that have been depleted from the fixed asset subsidiary ledger.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS

<u>District Clerk Records Management Fund</u> – accounts for District Clerk records management fees that are to be used for records management purposes.

<u>County Clerk Records Management Fund</u> – accounts for County Clerk fees that are to be used for records management purposes.

<u>HAVA/Election Fund</u> – (Help America Vote Act) accounts for the County Clerk and Tax Collector elections equipment, training, and voting accessibility.

<u>Courthouse Security Fund</u> – accounts for County and County Clerk fees that are to be used for courthouse security purposes.

<u>Road and Bridge Funds – Operating and Special Road Tax</u> – established to comply with Article 6790, Vernon's Civil Statutes, which authorized counties to levy, assess and collect ad valorem taxes (property taxes) (special road and bridge tax) for the purpose of constructing and maintaining special roads and bridges within the County. These funds also account for the motor vehicle license fee and the state lateral road credit allocation revenue.

<u>Congressional Appropriations Grant</u> – to be utilized for the use of grant monies per budget restrictions.

<u>Farm-to-Market Lateral Road Fund</u> – established to comply with Article 6674, Vernon's Civil Statutes and receives ad valorem tax revenues for the purpose of constructing and maintaining farm-to-market roads or for flood control.

<u>County Records Management Fund</u> – accounts for County fees that are to be used for records management purposes.

District Attorney Fund – accounts for District Attorney fees and charges for various collections.

<u>Sheriff Special Projects Fund</u> – accounts for grant proceeds used in tobacco age enforcement.

Border Star Program – accounts for grant proceeds used by Sheriff Department for border security.

Abandoned Vehicle Fund – accounts for proceeds of sales of abandoned or seized vehicles.

<u>Skidmore Colonia Grant Fund</u> – accounts for grants used for infrastructure improvements.

<u>BCAA Administration Fund</u> – used to accounts for administration costs of the Bee County Community Action Agency.

Child Care Fund – used to accounts for grants used for child care purposes including meals to children.

<u>Rural Public Transportation Fund</u> – used to accounts for transportation services for the general public in the non-urbanized service area.

<u>Title III Nutrition Fund</u> – used to accounts for home delivered meals to the elderly and disabled adults who are home bound.

Law Enforcement – used to increase the effectiveness and efficiency of law enforcement agencies.

Rural Officer Grant – used to increase the effectiveness and efficiency of law enforcement agencies.

<u>C.E.A.P. Fund</u> – Comprehensive Energy Assistance Program, this fund is used to provide household energy related services for low-income person.

<u>Law Library Fund</u> – to account for the cost of operating and maintaining a law library for public use. Financing is provided through fees charged as part of court costs for civil cases processed through the County and County courts.

Reliant Energy Fund – is used to provide funding for energy assistance payments to Reliant Energy customers under the CARE program.

<u>CSBG Fund</u> – Community Services Block Grant is used to account for direct services to low-income clients and supplements agency programs.

EFSNBP Fund – Emergency Food, Shelter, Nutrition Board Program is used to supplement the work of local agencies to assist people in need of emergency assistance relating to food, shelter, and rent or mortgage payments.

<u>CDBG Fund</u> – Community Development Block Grant is used to assist in providing clean water to the Blue Berry Hill division through a waterworks program.

<u>Victims Assistance Fund</u> – to account for collections and disbursements for the assistance of victims.

<u>CP&L Neighbor to Neighbor Fund</u> – to account for collections and disbursements for the assistance of electric utility bills.

<u>RPT Purchase of Service Fund</u> – Rural Public Transportation Fund, purchase of service fund is used for expanded transportation services for elderly and persons with disabilities.

<u>Vehicle Capital Replacement Fund</u> – used to account for capital acquisitions for Rural Public Transportation activities.

<u>Stop Violence Against Women Fund</u> – used for development and improvement of effective law enforcement and prosecution strategies to address violent crimes against women.

Technology Fund – accounts for grants used for technology enhancements.

<u>County Attorney Check Collection Fund</u> – accounts for County Attorney fees and charges for "hot check" collections.

Pre-Trial Intervention – used to account for pre-trial intervention expenses.

TXCDGB Colonia – used to account for TXCDGB expenses.

<u>CSBG McMullen</u> – Community Services Block Grant is used to account for direct services to low-income clients and supplements agency programs. This is a continuation of the 2008 CSBG grant.

Border Star Technology Project – used to provide funds for law enforcement technology needs such as laptops, radars, and other equipment required in the field.

<u>**DOE ARRA**</u> – American Recovery and Reinvestment Act funds used to provide home energy conservation repairs for low income households.

<u>Pettus Water Project</u> – used to provide funds to improve water system for the Pettus area from the Texas Community Development Program from the Office of Rural Community Affairs.

<u>Local Solicitation Grant</u> – to help combat violence against women, to improve the functioning of the criminal justice system and to assist victims of crime.

<u>CJD Grant</u> – used to fund an investigator through the district attorney's office to aid in expediting the delivery of cases to the courts and to fund the purchase of drug interdiction technology equipment to be utilized by the Sheriff's Department.

Border Prosecutor Grant – used to increase the effectiveness and efficiency of the consolidated efforts of the border security by federal, state, and local law enforcement agencies.

<u>Debt Service Fund</u> – used to account for the collection of levied taxes and payments of indebtedness of the County.

<u>Capital Projects Fund</u> – used to account for the acquisition and construction of major capital facilities other than those financed by other funds.

GENERAL INFORMATION

SEPTEMBER 30, 2012

Organized in 1858, Bee County, Texas was created from Karnes, Live Oak, Goliad, Refugio, and San Patricio Counties. The County was named after General Bernard Bee. Situated close to the Gulf of Mexico, Bee County is sea level to rolling, containing black, sandy, and loam soils, with mesquite and live oak trees. The County is a recreational paradise having many hunting, camping, and historical sites.

Bee County contains 842 square miles with an estimated population of 33,415. The County has an average annual rainfall of 28.9 inches and a growing season of 285 days. There is a considerable amount of oil and gas production in the County. Beeville, the County Seat and main city, has a County Hospital leased to Christus Spohn, and is an agribusiness center. As one enters the City, the Statue of Miss Justice can be seen standing majestically on top of the clock over the courthouse dome, giving the County an added air of dignity and stateliness.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable County Judge and Commissioners' Court Bee County, Texas

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Bee County, Texas (the "County") as of and for the year ended September 30, 2012, which collectively comprise the County's basic financial statements and have issued our report thereon dated February 21, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of Bee County, Texas, is responsible for establishing and maintain effective internal control over financial reporting. In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting as item 2011-01. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as item 2011-1.

We noted certain matters that we reported to management of the County, in a separate letter dated February 21, 2013.

The County's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the County's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, others within the County, and appropriate federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

February 21, 2013

Pattello, Bron 1 Hill, CCP:

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable County Judge and Commissioners' Court Bee County, Texas

Compliance

We have audited the compliance of Bee County, Texas, (the "County") with the types of compliance requirements described in the OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of County's major federal programs for the year ended September 30, 2012. The County's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the County's management. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments and Nonprofit Organizations*. Those standards, OMB Circular A-133, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the County's compliance with those requirements.

In our opinion, the County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2012.

Internal Control Over Compliance

Management of Bee County, Texas is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs.

In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the County's responses and, accordingly, we express no opinion on the responses.

This report is intended solely for the information and use of management, others within the County, and appropriate federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AND STATE AWARDS

SEPTEMBER 30, 2012

1. GENERAL

The Schedule of Expenditures of Federal and State Awards presents the activity of all applicable federal and state awards programs of Bee County, Texas. The County's reporting entity is defined in Note I of the basic financial statements. Federal and state awards received directly from federal agencies, as well as federal and state awards passed through other government agencies, are included on the Schedule of Expenditures of Federal and State Awards.

2. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal and State Awards is presented using the modified accrual basis of accounting. The modified accrual basis of accounting is described in Note 1 of the basic financial statements.

The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local governments, and Nonprofit Organizations* and *the State of Texas Uniform Grant Management Standards*. Therefore, some of the amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

<u>Program</u>	Findings/Noncompliance	Questioned Costs
<u>Finding 2011-1</u>	Bank Reconciliations	
Condition:	Bank reconciliations for bank accounts were not properly reconciled to the general ledger.	N/A
Recommendation:	Bank reconciliations should be prepared and reviewed in a timely manner in order to ensure that errors or irregularities are detected and corrected.	
Current Status:	During our current year audit, the bank reconciliations were provided in a timely manner. However, the County was unable to revise the bank reconciliation to account for all reconciling items properly due to software issues.	

CORRECTIVE ACTION PLAN

FOR THE YEAR ENDED SEPTEMBER 30, 2012

Finding 2011-1 Bank Reconciliations

Corrective Action Plan: The County will perform reconciliations monthly to insure that

bank accounts are reconciled properly to the general ledger. Bank reconciliation will be available at year end to ensure that

an accurate cash balance is reflected in a timely manner.
